**RE: Compliance Inspection Letter
D&J Farms-SOPC00046
Macon County, TN**

Dear Mr. Dewey Swindle:

On December 22, 2011, the Division of Water Pollution Control (WPC) from the Cookeville Environmental Field Office conducted a Compliance Evaluation Inspection of your no-discharge Concentrated Animal Feeding Operation (CAFO) located at 2440 Coleytown Road in Macon County. D&J Farms is a four house CAFO containing 82,000 broilers at the time of inspection.

Permit, Nutrient Management Plan (NMP), Records

Site maps, Nutrient Management Plan, litter analysis, soil sampling results, closure plan, and third party transfer records were all on site, well kept, and available for review at the time of inspection.

Litter Storage / Handling / Disposal

During the inspection, it was noted that litter was completely covered under the litter sheds. The litter sheds were not filled to capacity and runoff was not documented. Spreading of litter on the CAFO site was not observed on this date.

Comments

Site is very clean and well maintained.

If you have any questions or comments, you may contact me at (931) 432-4015 or by electronic mail at matt.cumby@tn.gov.

Respectfully,

Matt Cumby

Environmental Specialist
